GK-93 High-Frequency Word Bingo

Blackline Master available 
www.tpri.org

Students play bingo to practice reading high-frequency words.

MATERIALS: Word list, chalkboard/chalk, index cards, bingo boards, chips/counters, pencils/markers

- 1 Select 20 different high-frequency words and write them on the chalkboard large enough for students to view.
- 2 Write the 20 words on index cards, shuffle and place in a pile.
- 3 Create blank bingo boards with five columns and four rows, for a total of 20 squares.
- 4 Give each student a blank bingo board and 20 chips.
- 5 Using the words on the chalkboard, students fill in the squares on their boards in random order, writing one word per square.
- 6 One at a time, draw a word card from the pile and call it out. Students use a chip to cover a square with the word called.
- 7 The first student to cover an entire row or column wins.
- 8 Students clear their boards and play again as time permits.

PREPARATION OF MATERIALS: Print a blank 20 square BINGO sheet for each student. Print the High-Frequency Word Cards. Cut the cards apart. Follow the directions for play.
