Talk about Sequence

In the toddler 2 video, the teacher encourages the children to recall their morning by using a daily schedule. The teacher in the video talks about a sequence by:

- reviewing the events of the day
- pointing to a visual schedule with pictures
- asking questions to engage children and correct their understanding
- providing details about activities to assist with recall

Practice applying the key strategies demonstrated in this interaction on your own:

- Use a visual aid such as a daily schedule with pictures.
- Talk about sequences, multi-step routines, and patterns.
- Draw attention to patterns in things children can see.

When you are finished, reflect on the following questions:

1

What did you do to talk about sequence?

2

How did the children respond?

3

What was challenging?
What were roadblocks to talking about sequences?

4

What could you have done differently to talk about sequences?
