Face to Face Assessment

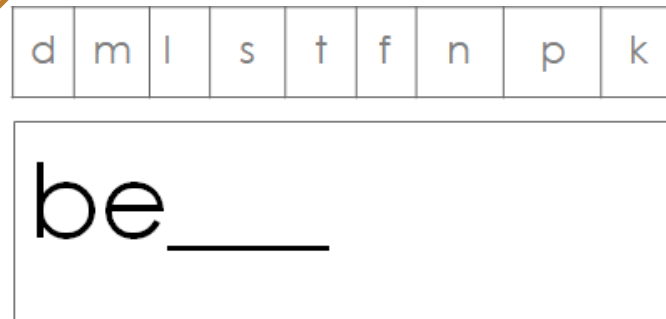

TPRI printable Task Boards adapted for remote administration SLIDES 4-32

For face to face administration, the paper task boards and letters are manipulated to create words. Teachers may still choose this option when assessing remotely, but materials will need to be sent to families. See TPRI scoring resources

Remote Assessment

For remote administration, teachers share the screen with the child to see each word individually and the child will point to or tell the teacher the letters needed to create words. At home learning partner can support teacher by stating the letters the student points to, if this level of support is needed.
